

CULLIGAN® NON-BACKWASHING FILTER SYSTEMS

EXPERIENCE THE DIFFERENCE CULLIGAN WATER CAN MAKE.

SYSTEM BENEFITS

- More effective than disposable activated carbon cartridge type filters
- Many tank options to accommodate a wide range of flow rates
- Simple installation saves money
- Requires no backwash water or electricity
- No moving parts
- Easy to maintain
- Media options for your specific water
- An alternative to backwashing systems for selected applications

A Lower Cost Option for Better Water

Culligan Non-Backwashing Systems use a simplified approach to whole-home and light commercial filtration needs. Non-Backwashing Downflow Systems with activated carbon media offer an alternative filtration solution for many applications across a range of flow rates. Several system sizes and media options allow customization for specific filtration needs using Culligan Fiberglass and Quadra-Hull® tanks matched with our versatile In & Out Valve with 1" porting.

Culligan Upflow Neutralizing Systems offer a simple, lower cost filter option to address acidic/low pH water conditions when a backwashing filter system is not necessary.

Culligan Non-Backwashing Systems offer savings on initial equipment investment and reduced installation and operating costs since they don't require a drain connection or an electrical supply.

Non-Backwashing Systems save water and electricity and have virtually no impact on the environment.

Culligan Water™

CULLIGAN® NON-BACKWASHING FILTER SYSTEMS

Product Specifications

Benefits

- Simple design with no moving parts
- No backwash or rinse cycles saves water
- Non-electric saves energy
- System options to improve water quality by reducing*:
 - *Chlorine, *Chloramine, *Disinfection Byproducts (DBPs)
- Activated carbon models prolong life of softening resins
- pH Neutralization for acidic water (Upflow models only)

Features

- Different sized models to accommodate a wide range of flow rates
- Bypass Valve included
- Downflow and Upflow system options
- Built-in metal reinforced 1/4" ports for:
 - Sampling Valves
 - Pressure Gauges

Quadra-Hull® Tank System

Fiberglass Tank System

Quadra-Hull® tank (shown) includes sweat jacket to prevent condensation on tank exterior.
