

Aquasential Smart High Efficiency Water Softener

World's Most Efficient Water Softener

Just how smart is the Aquasential Smart HE? Smart enough to alert you to low salt levels and other issues. Sophisticated enough to be controlled remotely. And intelligent enough to let you customize your water's softness.

With a new, modern color, improved app experience, plus always-on WiFi connectivity and remote monitoring, the Aquasential Smart HE gives you cleaner, safer water and more peace of mind.

Product Specifications

Patented Smart Technology

- Automatic bypass valve provides the convenience of bypassing the water softener from the softener itself or the Culligan Connect App.
- Exclusive Culligan Soft-Minder meter monitors daily water use and provides advanced system diagnostics.
- The easy-to-read back-lit display lets you know your softener is working and warns of system malfunctions.
- Culligan Dial-a-Softness control lets you choose the way you want your water to feel.
- Culligan's Connect App provides peace of mind with 24/7 monitoring and control of your Culligan equipment.

Exclusive Reliable Design

- Mechanical improvements including design updates and indicator lights to make sure it's always in peak condition.
- Exclusive, non-corrosive valve using motorized pistons that provide more reliability than rotary valve systems.
- High-impact Quadra-Hull Tank use a four-layer design that resists UV rays, rust and corrosion. Limited lifetime warranty.
- Cullex resin media which assures stability and long life. High-grade quartz underbedding evenly distributes water to maximize flow rates.
- Long-lasting brine tank with corrosion-proof components and Dubl-Safe brine refill control assure proper operation.

Get greater control over your water with our Culligan Connect Consumer App.

Now, it's easy to connect and monitor all of your connected Culligan devices, right from your smartphone or tablet.

- See all your Culligan connected products on one screen
- Manage your water softener remotely
- Dive into greater detail about water usage and product performance
