

Culligan Connect App

Now, it's easy to connect and monitor all of your connected Culligan devices, right from your smartphone or tablet.

Your Water Just Got Smarter

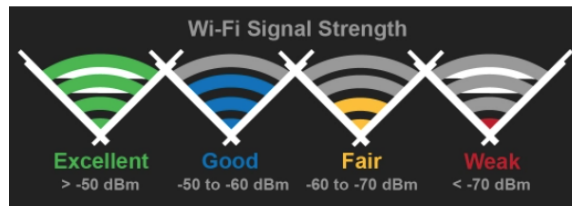

Monitor your Aquasential Smart Reverse Osmosis drinking water system and/or your Aquasential Smart HE Softeners. Push notifications will alert you if any unexpected water is detected, and a friendly reminder to contact your Culligan dealer when filters need to be changed or salt needs to be added. In addition, you can track your daily drinking water activity or make sure your system is running effectively, it is all done with a simple tap on the app! Staying connected makes it possible for you to be in control of your home's water, provide you with peace of mind and the freedom to control your equipment.

Take control of your home's water with personalized insights in the palm of your hand with the Culligan Connect App.

The Basics

- WiFi Connected
- Managed on your smartphone or tablet
