

Spring 2026 Guide

April • May • June

Why Is My Hair So Dry?

You and your hair deserve better. That's why it's important to brush up on all the reasons you might have dry hair (and what you can do about it). From regular use of heated styling tools to frequent hair washing to oil-stripping hair treatments, there can be a multitude of causes. Our guide can help you better understand how dry hair happens and what you can do about it.

Using Water to Combat Seasonal Allergies

What's not to love about spring? Warmer weather, blooming flowers, and longer sunny days. For those with seasonal allergies, it can be a challenge—but it doesn't have to be. This summer, find relief in one simple, natural ingredient: water. Our guide shows how H₂O can help ease sneezy, stuffy symptoms so you can enjoy the outdoors again.

Our Power, Our Planet - Earth Day 2026

Environmental progress is built through everyday action—from communities protecting ecosystems to innovators advancing solutions. Clean air, safe water, and climate resilience aren't optional—they're essential.

Earth Day 2026 affirms that environmental progress is real, resilient, and ongoing despite policy uncertainty. Innovation, education, and community problem-solving remain durable. [Click to explore](#) resources and actions to get involved in on Earth Day 2026 and year-round.

Celebrating our ★ Legends ★

One of our 4 Hall of Famers, Kendall has served as a Sales Representative at our Harrisonburg location for thirty-one years. During that time, he also worked in our service department for several years. He takes great pride in working for a company where so many employees have built long, dedicated careers—something he sees as a true testament to the Culligan culture. For those beginning their journey with us, Kendall emphasizes that putting the customer first is essential, not only building trust, but also cultivates long-term success.
